

Harmoni Foil

Harmoni Foil is an ultra-thin electric radiant floor heating system primarily for use under laminate, engineered wood and glued hardwood. Uniform heating is achieved by the specialised materials used, which also eliminates problems due to hotspots or localised heating. As the Harmoni Foil is fully earth protected and covered in aluminium foil.

The Harmoni lifetime warranty ensures your product gives you a lifetime of trouble-free use and is guaranteed against manufacturer defects for the lifetime of the initial floor covering.

The installer warranty guarantees if you damage your Harmoni product before your finished floor surface is installed, we will replace it with an equivalent product free of charge.

FEATURES

- Full earth protection
- Ultra-thin heating cable
- Twin conductor heating cable
- Complete earth braiding
- Easy to install

SPECIFICATION

Cable thickness	3mm
Output	140W/m ²
Operating Voltage	230/240V
Cold tail connection lead	3m
Standards	Semko S Mark Approved

! When using Harmoni Foil, our XPS insulation boards must be laid first.
