

HERSCHEL HAVANA 800 Watts Freestanding Portable Infrared Patio and Under Table Heater

SETUP & OPERATING INSTRUCTIONS

TECHNICAL INFORMATION:

Rated Power:	800W @ 220-240V
Heating Element:	Long Life warm glow carbon fibre heating lamp
Dimensions:	Ø20 x 65 cm
Mounting position:	Standing
Warm-up time:	10 seconds
Warranty:	2 Years (excludes lamp & coating)
Protection:	IP44

ELECTRICAL EQUIPMENT:

Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist.

IMPORTANT NOTICE TO PURCHASER:

Before using the product, you should determine its suitability for its intended use. HERSCHEL INFRARED LTD expressly disclaims implied warranties and conditions of merchantability and fitness for a particular purpose. In no case shall HERSCHEL INFRARED LTD be liable under any legal theory, including but not limited to contract or strict liability, for any direct, indirect special, incidental or consequential damages resulting from product use.

The product complies with the essential requirements of European Safety Standards Low Voltage Directive 2014/35/EC. Original instructions covering HAVANA 800 Watt heaters produced 122019 onwards.

IMPORTANT SAFETY PRECAUTIONS

READ THESE INSTRUCTIONS CAREFULLY AND RETAIN FOR FUTURE REFERENCE.

Failure to observe these instructions will invalidate the warranty. No liability can be accepted for any damage caused by non-compliance with these instructions or through improper use or mishandling.

This unit may be a source of possible shock.

Do not disassemble. No user-serviceable parts inside.

Source of possible ignition.

WARNING

TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK OR INJURY:

1. Remove the unit from its packaging and check it to ensure it is in good condition before installing and operating.
2. **DO NOT** let children play with plastic bags or other parts of the packaging.
3. **CAUTION:** Risk of Electric shock
 - a. This appliance must be disconnected from its power source during installation or servicing.
 - b. **DO NOT** use this heater in the immediate surroundings of a bath, shower or swimming pool or hot tub where it could fall into a container full of water.
 - c. Switches and other controls must not be within reach of a person in a bath, pool, hot tub or shower.
 - d. **DO NOT** touch this heater or its controls with wet hands.
 - e. **DO NOT** allow power cables to become immersed in water or other liquid.
 - f. **DO NOT** open or try to repair the heater yourself. Servicing should be performed by qualified personnel only.
4. In order to avoid overheating and potential fire hazard, **DO NOT** cover the heater under any circumstances. If the heater should become accidentally covered during operation, turn it off immediately and clear out any foreign objects that have covered the heater or become lodged in the grill.
5. **DO NOT** touch the heater when in use. Parts of the heater may exceed 200°C / 392°F during operation. Contact with the heater during operation may cause severe burns. Do not touch the heater during or for 10 minutes after operation.
6. **DO NOT** use the heater if the power cord is damaged. This must be replaced by Herschel, its service agent or similarly qualified persons.
7. **DO NOT** use the heater to ignite materials. **DO NOT** operate in locations containing gasoline, flammable liquids or other volatile substances.
8. **DO NOT** install this heater near, or pointing towards flammable objects within 1 metre or where curtains, towels or other flammable items can be blown onto the heater.
9. This heater must only be used for the heating of people outdoors or indoors in an unenclosed space. The HAVANA is not to be used by children or persons with reduced physical, sensory or mental capabilities, or lack of experience or knowledge, regardless of whether they have been given instruction or are under supervision. Children should be kept away and should not be left unsupervised around the unit.
10. All operators shall only switch on/off the appliance provided that it has been placed or installed in its intended normal operating position and they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not plug in, switch on or regulate the appliance or perform user maintenance including cleaning.
11. **DO NOT** leave the heater operating unattended.
12. **IMPORTANT:** Ensure supply voltage does not exceed 245 Volts.

SAVE THESE INSTRUCTIONS.

WATER INGRESS PROTECTION:

Herschel HAVANA is rated to a standard IP44 (splashproof) enabling it to be placed outdoors only where the unit can be protected against any effects of driving rain, wind, frost or salt water contamination. Store inside when not in use. Herschel HAVANA is not intended for permanent installation outdoors, or for use in locations that are permanently wet or humid.

ELECTRICAL INFORMATION:

The HAVANA is supplied with a plug and is intended to be portable. It is not intended for permanent (fixed) installation.

Any extension lead used must have sufficient capacity to carry the current required by the heater and must provide an earth to the heater. All plugs, sockets and switches intended for use outdoors must have an appropriate water ingress protection. Always disconnect the heater from the power when not in use.

Table 1. Electrical Specification

Model	HAVANA 800
Voltage	220 – 240V
Rated Power	800 Watts
Current	3.5 amps
Frequency	50 Hz
Cable Colour	Brown, Blue, Yellow/Green

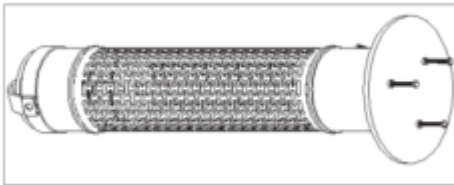

Be careful to ensure that the cable does not become a trip hazard.

Colour coding used in the supplied mains cable:

BROWN wire is to be connected to LIVE ('L'), the BLUE wire to NEUTRAL ('N') and the GREEN/YELLOW wire to EARTH ('E').

ASSEMBLY:

Secure the base to the heater using the screws provided.

POSITIONING:

The Herschel HAVANA is a portable low power middlewave infrared heater designed for gentle heating of people in very close proximity to it or under a table. HAVANA has a special coating designed to keep the surface temperature of the heater safe to touch. However, be careful not to touch the surface of the heater during operation and let the heater cool down fully before moving. If using under a table do not allow a table cloth to protrude over the sides of the table and cause a potential obstruction. **DO NOT COVER THE HEATER. KEEP THE HEATER AWAY FROM ANY COMBUSTIBLE MATERIALS.**

The HAVANA has tip over protection and will switch off if it falls or gets knocked over. Place the heater on a firm level surface.

CAUTION:

- Ensure mains power is OFF and the unit is cool before handling.
- Heater must not be located immediately above or below a socket outlet.
- Be careful to ensure that the mains power cable does not become a trip hazard and cannot be pulled by small children.
- Do not leave the heater unsupervised.
- Do not let children play with or touch the heater.
- Do not use in rain or bad weather.
- To avoid breaking the lamp handle the unit carefully.
- Use the handle to move the heater and only move when the heater is off and has cooled down.

Storage: Store the heater in a cool, dry location when not in use to prevent dust and dirt build up. Use packaging carton to store.

INITIAL USE:

Plug in the heater and switch it on using the switch on the front of the unit.

There may be odour or vapour from the heater on initial use or if it has not been used for an extended period. This is normal.

USER MAINTENANCE:

Avoid touching the protective coating of the heater. DO NOT SCRATCH OR RUB the protective coating on the heater, removal or damage to the coating will increase the temperature of the grill of the heater and cause it to be very hot to touch.

The heater may be carefully wiped-down with a soft damp cloth. Do not use abrasive detergents to clean the unit. DO NOT use alcohol, petrol, abrasive cleaners, furniture polish or rough brushes to clean the HAVANA. This will cause damage to the surface of the heater.

Changing the lamp should only be carried out by suitably qualified personnel.

Store the heater in a cool, dry location when not in use to prevent dust and dirt build up. Use packaging carton to store.

DISPOSAL:

This heater is an electrical product and must not be disposed of in household waste. A high percentage of the heater can be recycled. Please treat as electrical waste and recycle in accordance with local regulations.

WARRANTY:

Register your product here:

<https://www.herschel-infrared.com/customer-service/warranty-registration/>

The Herschel HAVANA is guaranteed against failure due to faulty materials or workmanship for two years from date of purchase excluding the lamp and coating. In the unlikely event of failure of the unit within this time, the unit must be returned to the supplier for repair or replacement. The guarantee is invalid if the setup instructions as given in this leaflet have not been adhered to. Refer to Herschel Infrared Ltd's warranty policy for full details. See <https://www.herschel-infrared.com>. Note your serial number for future reference:
