

 Electric Radiator

TTPLUS

The comfort you need

Electric Radiator

TTPLUS

Rely on our unique
"consumption control" function

With its **150 W per element** and our technology, you will be able to know in real time the electricity consumption of your radiators to maximise savings without sacrificing comfort.

An **energy-efficient** solution for any living or working space in all types of buildings, this radiator combines the very best of high quality design with precision engineering and thermal capabilities – to heat your space efficiently and effectively.

Now with its **LCD display** and intuitive buttons you will find it easier to programme your **TTPLUS** and use all its functions.

Dynamic fluid with high thermal inertia

Display panel

150 W per element

SPECIFICATIONS & FEATURES

- Bespoke programming.
- Manual or automatic mode.
- 3 modes: comfort, economy and anti-freeze.
- High-quality aluminium elements.
- Dynamic fluid with high thermal inertia.
- Digital PID chronothermostat with accuracy +/-0.2°C.
- Safety thermal limiter.
- Daily and monthly consumption reports.
- Power cable with plug included.

Model	Power (W)	Voltage	Dimensions (mm)	Fins
TT4PLUS	600	230	484x572x100	4
TT6PLUS	900	230	617x572x100	6
TT8PLUS	1200	230	750x572x100	8
TT10PLUS	1500	230	903x572x100	10
TT12PLUS	1800	230	1036x572x100	12
